PROJECTS AND COURSEWORK

Portfolio Website Post Graduation 2024

I made a website template using HTML and CSS that looks nice and works well on different devices.

E-commerce Website Post Graduation 2024

I developed an E-Commerce website using web development technologies to gain hands-on experience in designing, developing, and deploying a real-world system.

Chatbot Post Graduation 2023

I made Chatbot using web development. It's a computer program that can talk to people on the internet, helping them get answers and information easily.

Online Examination Education 2020

Management System

I developed an OES in 2020 using HTML, CSS and PHP. This system allows for efficient online assessments and evaluations. I build it as a response to the COVID-19 pandemic to support remote learning and assessment.
